Subject: Microsoft Settlement

Gentlemen:

Our household is unanimous in the opinion that the Microsoft settlement is sufficient and the case should be concluded ASAP. Our economy has sustained enough damage. It is high time to start healing the wounds and let Microsoft and competitor's management get back to growing the industry instead of trying to wreck it with Justice Department help. The nine desenting states should get in line with the majority for the good of the country.

Respectfully submitted,

Richard J. and Mary Ann Boulanger
